Manaras-Opera's Improved Limit System

Responding to your needs, Manaras-Opera is pleased to announce that they have developed a new improved limit system for their MTH and MTBH Electronic Operator applications, beginning June 17, 2009.

What was improved

- Unique central lever has been eliminated.
- Each limit now has an independent lever which is specifically formed for a more consistent activation.

Changes made apply to the MTH/MTBH electronic and MTH/MTBH-APE operators.
For further information, please contact your Manaras-Opera sales representative.
