Handle Added to Operator Disconnect Mechanism

Operator Disconnect Mechanism ▶▶▶

Manaras-Opera Improves Disconnect Mechanism

Responding to your needs, Manaras-Opera is pleased to announce that they have added a handle to their operator disconnect mechanism: **HANDLE 007**.

Details

- A metal handle has been added in order to facilitate the handling of the hoist disconnect mechanism.
- Height of the handle can be adjusted to meet your requirements by tying the chain in a knot at the desired location.
- Applies to all operators with a brake and/or a disconnect mechanism.

The phasing-in/out process will begin fall 2010.

Please refer to the instruction manual for further details or contact your Manaras-Opera sales representative.
